## "3-LEG" BRITISH KEEN CUT SAWS

BEST CAST STEEL.

**A 482** Hollow Back—The British Keen Cut.

**A 482a** Straight " " "

Our increase in sales for these Popular Saws is due undoubtedly to Quality, Finish and Price. The Saws are made under the supervision of Saw Experts.

**THE BLADES** are from high-class Sheffield Steel, suitable for the purpose, carefully tempered and accurately ground thin to back to allow to cut freely.

**THE HANDLES** are made from the Best English Beech, Full Polished, securely fastened with brass polished screws.

## THE IMPROVED "BOWDON" SAWS

Packing

**A 39** All Black Ebonised Handle, Nickel-plated Screws.

Boxed  
1/2 doz.

**Three-quarters of a Century** ago the first "**Bowdon**" Saws were manufactured by us.

Success was immediately established, and, from that time to the present, has been maintained to a remarkable degree.

We claim that no other Branded Saw has ever held the market for so long a time, or secured such wide-spread and largely increased sales as the

**"BOWDON."**

This, we believe, is entirely due to the

**QUALITY, FINISH and PRICE.**

The installation of new machinery has enabled us to embody further improvements and reductions in prices, thus making the **New "Bowdon" Saws Better Value than ever.**

## THE IMPROVED "BOWDON" HOLLOW-BACK HAND SAW

**A 40** All Black Ebonised Handle Nickel-plated Screws.

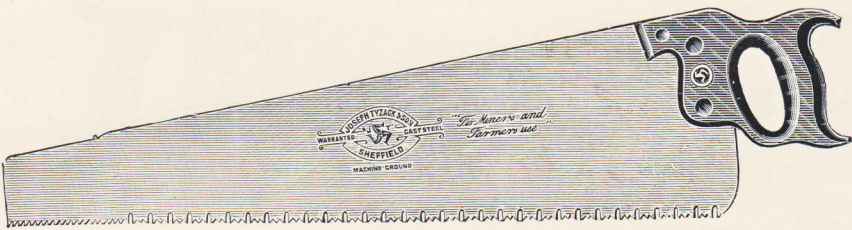

"

This Saw has been specially designed by us to meet the demand for a cheaper quality **Hollow-back** Hand Saw, and is a continuance of our other lines of "**Bowdon**" Saws, which we have manufactured **for three-quarters of a century**, and which have met with continued success owing to **reliability** and consistency of

**QUALITY, FINISH, AND PRICE.**

"3-LEG" IMPROVED BUTCHERS' SAWS

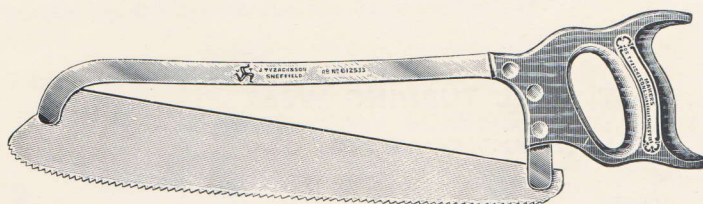

Packing

A 150 Butcher's Bow Saw.

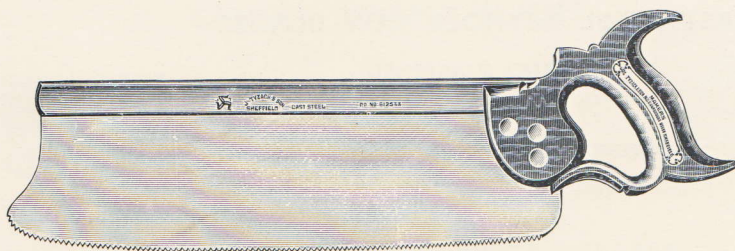

Boxed  
½ doz.

One Saw carded, as illustrated above, sent with each order.

A 151 Grocer's Bow Saw.

"

A 152 Butcher's Iron Back Saw.

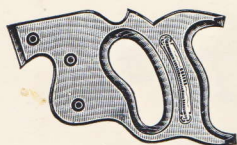

"

The above Saws are a great improvement on the old patterns. Owing to the shape of the blades they will get loins out quicker than any Saws made. The full length of the blades can be used, whereas with an ordinary Saw the point only is used. The work being evenly distributed over the blades they do not require sharpening so often.

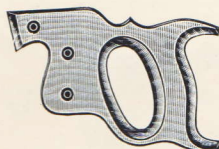

Specially recommended for Pork Butchers.

"

## "3-LEG" LIGHT PLASTERING TROWELS FOR FINISHING

THE STRENGTH OF THE BLADES VARIES ACCORDING TO THE NUMBER OF RIVETS—THE MORE RIVETS—THE THINNER AND LIGHTER THE TROWEL.

C 12a Extra Cast Steel.

This Trowel is made with specially ground, extra Thin Blade for finishing. The Tang is fastened with 10 rivets to strengthen and prevent the blade from giving way. Handle fitted to Screwed Tang, with Detachable Nut.

THE PERFECT FINISHING TROWEL

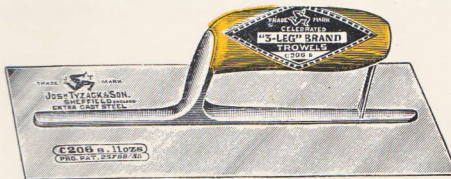

C 12b Extra Cast Steel.

We claim the superiority of this Trowel over any other make on the market, for Price, Quality and Workmanship. The Blades, being used for finishing work, are accurately tempered and ground thin to edge. The Tang is fastened by 10 rivets to strengthen and prevent the blade from giving way. The handles are fitted to Tang with screws and nuts, and the C 12b Handle is of new improved pattern and specially shaped for comfort when working. **Perfect in every detail.**

## THE NEW 11-OZ. "3-LEG" FINISHING TROWEL

Pro. Pat. Regd. No. 25788/30.

C 206b Extra Cast Steel.

This Trowel has been designed to meet the demand for an extra light Finishing Trowel. The Tang is made of a Special Alloy, and is fastened to the Blade by 10 rivets to give strength.

The Handle is shaped to allow maximum clearance and is secured to the Screwed Tang with Detachable Nut and light steel back support.

THE PERFECTION OF WORKMANSHIP.

Packing

Boxed  
¼ doz.

Singly  
Boxed

**"3-LEG" PLASTERER'S SUPER FINISH  
CENTENARY TROWEL**

Packing

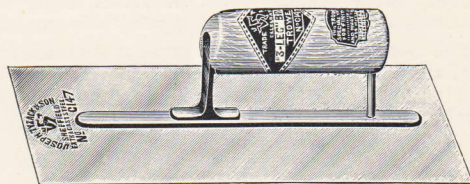

**C 207b** Extra Cast Steel, 10 rivets.

Singly  
Boxed

**SUPER QUALITY AND FINISH** combined with all the chief characteristics of the celebrated "3-leg" Finishing Trowels, are embodied in this Trowel, which is guaranteed to be perfect in every detail. Each trowel boxed singly in attractive Orange and Blue Display Box.

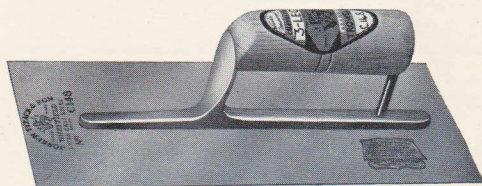

**"3-LEG" LIGHT PLASTERING TROWELS  
DOUBLE HANG FOR FINISHING.**

**C 147** Extra Cast Steel, 8 Rivets with Light Flexible Blade.

Boxed  
 $\frac{1}{4}$  doz.

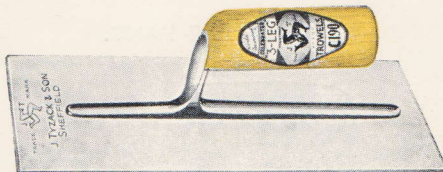

Fitted with Extended Strap and Double Rivet Tang, ensuring strength with lightness.

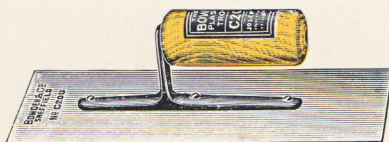

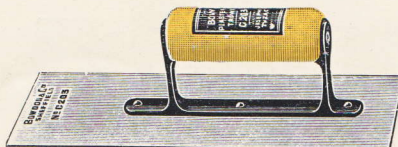

**C 148** Extra Cast Steel, Improved Tang, 8 Rivets, extra Light Blade, as C 147. This Trowel is our C 12 made Double Hang.

**"3-LEG" PLASTERING TROWEL, with Celluloid Blade**

Packing

**C 190 Single Hang, 8 Rivets.**Boxed  
1/4 doz.

These Trowels are particularly useful when working with patent coloured cements and plasters, which contain certain acids, because the Celluloid Blade does not corrode nor discolour, as in the case of ordinary Steel Plastering Trowels.

**JOBBER'S' PLASTERING TROWELS****C 200 "Bowdon," Cast Steel, Single Hang, Strong Blade.**Boxed

**"3-LEG" UNIVERSAL FLOOR SCRAPER**  
A NEW TYPE OF DIRT AND GREASE REMOVER

Packing

An entirely new departure from the old heavy type of Floor Scraper.

Especially suitable for removing dirt and grease from concrete, stone, or patent floors.

The Scraper is made with a detachable, thin flexible steel blade which enables it to be pushed under greasy deposits, and peels the floor clean.

It is fitted with a 4 ft. Handle, or Short Handle, 7 in. if desired.

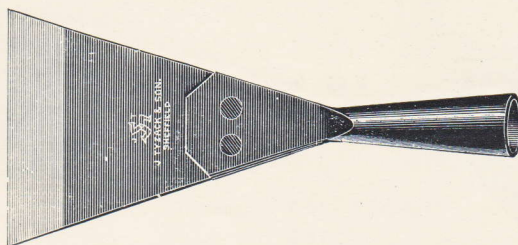

This type of Scraper has been used with marked success on the floors of large Garages, Motor Bus Centres, Chocolate Factories, Bakehouses, and Confectionery Works.

- E 957** With 8 inch Blade and 4 ft. Handle.
- E 957a** „ 8 „ „ „ 7 inch „
- E 957b** Extra Blades for above, 8 inch.

**“3-LEG” O’RAKE (Hoe-Rake)**

It is indispensable for weeding and “lightening up the earth” between Bean and Pea rows, etc. Before the advent of the O’RAKE, this task had to be done by hand. By using the O’RAKE in an upright position, every part of the row can be kept clean and cultivated. It is also particularly adaptable to small seed beds. Its unique design permits its use close up to the plant, and will not damage or injure it like the blade type of Hoe.

**F 62b**  
Regd. No. 383489.

A further advantage is that the O’RAKE when used tilted, with a backward and forward movement removes the weeds with roots. When used as a Rake its advantages cannot be overrated. The O’RAKE will penetrate where the usual type of Rake cannot get. It can also be used to advantage in refreshing gravel paths.

**F 62b** 8 Teeth, Handled.

**F 62c** „ Unhandled.

**“3-LEG” FIELD HOES (Handled)**
